Welcome to the April issue of the Forester, the parish magazine for Challock & Molash.

The winner of the **Sudoku Prize Draw** competition this month is Carole Jenkins. This month's Sudoku puzzle is on page 26, the solution to last month's puzzle is on page 11.

The new rewilding project sounds really good. Turning parts of Challock Lees into areas of wild flowers to give a habitat to bees and other insects is a great idea. Mowed grass may be fine for people but it's not so good for wildlife. I have a small area at the back of my garden that I allow to stay wild including Stinging nettles as these protect small wildlife. Its funny but keeping that small area small actually takes some work. Wildflowers and other "weeds" can be very naughty.

Lots of articles in this month so plenty to read when you are not outside sorting out the garden. Roman emperors and the first Prime Minister, lots of History (see page 7). Then there is the more practical Give your House an MOT on page 41.

Looking forward to getting outside and meeting a few people so let's hope the lockdown easing continues and we can move back to some form of normality.

I am always interested in any articles, poems or stories. Please just send them to the email address below.

Thank You

Dear Friends,

Easter will soon be upon us – where is this year going?

As I write this, we continue our time of waiting and preparation as we journey towards the sadness of Good Friday and then – just three days later – the joy of the Risen Christ on Easter Sunday. Alleluia!

Sometimes, things are not what they seem to be. What looked like a certain end on Good Friday, with the crucifixion of our Lord and Saviour Jesus, turned out instead to be a new beginning, holding a promise not just for one but for all.

We are all on journeys and even though we may never have been to the Holy Land, all of us have experienced walking along the road to Emmaus. The road to Emmaus represents the road of disappointment, failure, sorrow, grief, and shattered dreams. It represents the loss of loved ones so cruelly taken.

It was along this same road that two very despondent disciples were heading away from Jerusalem because they had recently seen their Lord and Saviour crucified, and they believed that that was the end. Even when Jesus joined them and walked alongside them on the road, they didn't recognise him at first.

It isn't our nature to look for God in pain. We expect to find him only in joy. But this was the great discovery the two disciples made on their journey to Emmaus. It gave a meaning to their pain but it didn't remove it as it doesn't remove ours, but it may change our attitude to it. It enabled the disciples to turn their lives around - literally. They had been going away from Jerusalem because they had lost faith. However, after encountering and then recognising Jesus, they returned to Jerusalem and they resumed their discipleship and their ties with the community. An encounter with Jesus is not meant to foster evasion of responsibility, but to encourage commitment.

The "Good News" is that the risen Christ is always with us wherever we journey. So, may you be blessed during this Easter time as we continue our journeys and travel towards Pentecost, knowing that Christ is with us every step that we take.

Yours in Christ *Cathy*

Marcus Aurelius – Stoic philosopher and Emperor of Rome

Some 1900 years ago, on 26th April 121, Marcus Aurelius, Emperor of Rome (161-180 AD) and Stoic philosopher, was born. He was the last of the rulers known as the Five Good Emperors, and the last emperor of the Pax Romana, an age of relative peace and stability for the Roman Empire.

He had been marked out as a future emperor at the age of 17, being related to several prominent establishment families, but he actually ascended to the position when he was in his 40th year.

His biggest interest was Stoicism, which emphasised fate, reason and self-restraint, and his works are still read. But he was not a great innovator, and at his death the Roman Empire was in deep crisis, both militarily and from a devastating plague.

Marcus had cleared away much of the harshness and anomalies in Roman law, but he disliked Christians. He did not initiate persecution, but he did nothing to stop it, and it seems that Christian blood flowed freely during his reign. On his death he was deified by the Senate.

Philosophically, he had spiritual virtues. He said: "Waste no more time arguing about what a good man should be. Be one."

The first British Prime Minister

Robert Walpole became the first British Prime Minister 300 years ago, on 3rd April 1721. It was a title he rejected, but historians agree that he effectively created that office for himself

He was one of the greatest politicians in British history, but he had intended to be a clergyman, until his older brother Edward died in 1698, leaving him responsible for the considerable Walpole estate.

His country seat was Houghton Hall in Norfolk, which he used as a base for generous, sometimes extravagant hospitality and built up an impressive art collection, most of which was later sold and now resides in the Hermitage Museum in St Petersburg.

Another part of his legacy is 10 Downing Street, which was offered to him personally by George II, but which he accepted as the official residence of the First Lord of the Treasury. He was knighted in 1726 and made Earl of Orford on his resignation in 1742.

His skills as an orator and negotiator played a significant role in sustaining the Whig party over a long period, and in ensuring the Hanoverian succession. He rebuilt the tower of the medieval church on his Houghton estate as a memorial to his grandfather.

The Canterbury Menagerie

(by Lynwen Paddy, February 2021)

I wish I had a menagerie just like the Dean in Canterbury!

The Very Reverend Doctor Robert Willis, of Canterbury Cathedral goes on-line every morning to speak to all the people.

At morning prayer, his sermons and readings are much appreciated and very appealing, for not only are the words he reads so skilfully chosen, and the themes of the day so carefully woven, but those cheeky living props he uses are just golden.

He always finds a cosy spot within the precinct walls, in garden wild or tempered, greenhouse warm and bright, with table, chair and teapot there all within our sight. The birds and bees and animal expertise all receive an invite.

Within the tall cathedral walls four felines do abound.

Tiger and Leo to name but two really do astound.

Turkeys and hens, a rooster too, who appears to perform right on cue, whilst Winnie and Clemmie the pigs have yet to take a turn they did produce piglets a plenty in 2020 to join the cathedral's firm.

During, "exploration, discovery and courage to keep going", turkeys were the Dean's chosen breed and companions for the morning.

Eagerly they gobbled up the food that was on offer clearly heeding the advice the Dean had earlier proffered. Lizzie looked a little hesitant the morning of that day but soon heard kindly words, "Come on Lizzie, that's the way"

Tiger is the most experienced, having made more than one appearance.

During the Lords Prayer he sat respectfully and listened but something in that milk jug on the surface really glistened.

With his stripes and all his might he jumped upon the table, for although he has only three legs, he is still very able.

His paw was dipped, the milk was licked, his desire was satisfied for he clearly couldn't contain his frustration upon hearing the words "Do not lead us into temptation".

On another occasion,

a bit of mewling and audible chewing could be heard on the website recording as Tiger discovered the Dean had a weird thing latched on to the top of his robing.

Now Leo, the grey cat has also made an impact for during a sermon when the Dean was seated, he walked under his cassock, what a classic!

In at the front and out at the back he appeared to enjoy his new cat flap.

But rooster Russell Crow is the real pro.

He only had a walk on part but his timing was just pure art.

He stood and listened for his cue ("while he was still speaking the cock crowed")

and then without any further ado delivered his perfect "cock a doodle doo".

Whilst wooing the crowds was his intention, I think Russell had a bit of divine intervention.

I can only marvel at the Dean who carries on undeterred, however much his animals want to be heard.

He really is an Internet sensation across all corners of our Nation.

Challock Lees Rewilding Project 2021

We are delighted to inform all residents of Challock that following a number of representations from local Parishioners, the Parish Council have agreed to trial a number of areas on the Lees for natural re-wilding and for the project group to work with the primary school on the wildflower border proposed by the parish council.

A small number of volunteers have formed a group to get this exciting new project off the ground and we hope to bring in an eco-group of children from our local primary school to ensure that they are involved from the very start with all areas.

The benefits are many but... it will take time to develop this managed but natural habitat over the next few years.

- Plant diversity to attract insects, invertebrates, birds, and small mammals.
- Wildflowers to be encouraged to add colour to the local environment throughout the seasons.
- Active involvement from residents & the general community for the benefit of all.
- Enhancing the Lees bring more of the countryside into the village.
- Quiet areas within the village for family or individual downtime amongst Challock natural surroundings.

Our project team will ensure that these areas are maintained in a tidy state.

The areas for natural development will not impact on any of the current activities that take place on the Lees. The areas have purposely been selected on the perimeter rather than through the central green expanse.

We hope that the Lees will continue to be a place for all, as it is now, but with a richer flora and fauna to enhance what is one of the most important and central features of the village.

Work has already commenced with the marking up of the areas. The ground man has scarified and rotovated area 5. After Easter the school children will be planting the seeds. Phase 2 the project group are looking to plant wildflower plugs around the beginning of August. In order to plant the plugs, the project group have already recruited a dozen or so volunteers to help grow them through the summer and then we will arrange a community planting session when they are ready. Have received a donation to cover the cost of the seed trays and Serena Shirley has kindly donated the seeds.

The Five Church Walk

It is with great regret that for the second year running we have to cancel this year's Five Church Walk which would normally take place on the first May Bank Holiday Monday.

Hopefully we can hold The Walk at the usual time next year, May 2nd 2022, when once again we can enjoy the bluebells at their best, hear the skylarks and cuckoos singing and woodpeckers bashing away at their tree trunks. You will be following footsteps first paced out in 1984 and (almost) every year since.

To whet your appetites, and for those new to the villages, we walk between the churches of Challock, Molash, Chilham, Godmersham and Boughton Aluph, almost totally through woodland and fields. You can book in at any of these churches and either walk the entire circuit of 16 miles or leisurely strollers can walk any one or more stages of between 3 and 4 miles, so there is something for everyone and their dogs. And the route is arrowed so you don't need maps.

The proceeds from walkers' donations go towards the repairs and running expenses of the five churches and also to the Kent Air Ambulance and The Pilgrims' Hospices. It is each walker's choice which churches or charities to support.

And, don't forget, you will also be able to enjoy the delicious refreshments provided by the tea urn squad at each church, where there are also loos and car parking.

Miscellaneous observations on daily life...

In order to keep a true perspective of one's importance, everyone should have a dog to worship him and a cat to ignore him.

The trouble with doing something right the first time is that nobody appreciates how difficult it was.

Nature Notes

There is ample evidence of the emerging spring as I take my daily walk. The bluebells are now carpeting the woods interspersed with delightful patches of primroses and wood anemones and amongst the increasing bird song a green woodpecker startles me with his loud yaffle.

With due deference to Telegraph readers I couldn't help but notice an article which depicted how spring was described by four famous writers which I reprint here.

It was one of those March days when the sun shines hot and wind blows cold; when it is summer in the light, and winter in the shade. We had our pea-coats with us, and I took a bag. *From The Secret Garden by Frances Hodgson Burnett*

Is the spring coming? He said. What is it like? You don't see it in rooms if you are ill. It is the sun shining on the rain and the rain falling on the sunshine, and things pushing up and working under the earth, said Mary.

From Anna Karenina by Leo Tolstoy

He had dust in his throat and eyes, and splashes of whitewash all over his black fur an aching back and weary arms. Spring was moving in the air above and in the earth below and around him, penetrating even his dark and lowly little house with its spirit of Devine discontent and longing.

From Great Expectations by Charles Dickens

Bow legged lambs playing around their bleating, shedding mothers, fleet footed children ran over the drying paths covered with the prints of bare feet, the Merry voices of women with their linen chattered by the pond and from the yards came the knock of the peasants axes, repairing ploughs and harrows. The real spring had come. *From The Wind in the Willows by Kenneth Graham.*

Kent Fraud Alert

TO STOP FRAUD™

Phishing Emails and how to spot them

With so many of us receiving dubious and suspicious emails, commonly known as phishing emails, I want to remind you of what phishing is and some tips on how to spot the signs of a scam email.

Phishing is a method used by fraudsters to access valuable personal details, such as usernames and passwords. These can have a monetary value to criminals. Phishing can also involve sending malicious attachments or website links in an effort to infect computers or mobile devices. Criminals send bogus communications: emails, letters, instant messages or text messages. Very often these appear to be authentic communications from legitimate organisations. Embedded links within the message can direct you to a hoax website where your login or personal details may be requested. You may also run the risk of your computer or smartphone being infected by viruses.

How to spot a scam email

- The sender's email address looks suspicious. Roll your mouse pointer over the sender's name to check it. If it doesn't match the website address of the organisation it says it's from it could be a sign of a scam
- There's a request for personal information.
- Poor grammar and spelling mistakes.
- The email doesn't use your name – it says something like 'Dear customer' instead
- There's a sense of urgency, asking you to act immediately
- There's a prominent website link that may look at first glance like the proper address but has one letter missing or is spelt wrong.
- The entire text of the email is contained within an image rather than the usual text format, and the image contains an embedded hyperlink to a bogus site. Again, roll your mouse pointer over the link to reveal its true destination. But don't click it!
- Finally if in doubt or if you know that it is a scam then forward to **report@phishing.gov.uk** and they will look to take action.

Finally, if you believe you have been a victim of this type of scam, then contact your bank, immediately and report it to Action Fraud at **www.actionfraud.police.uk** or by calling **0300 123 2040**.

HOW CHALLOCK CAN HELP FIGHT THE UNFLUSHABLES!

Did you know that over the last year, Kent residents have experienced **8,375** blockages of their waste water pipes?

The most shocking thing is that nearly two-thirds of these blockages are preventable. Most are caused by people flushing unflushable items like wipes down their toilets, or putting fat, oil and grease down their kitchen sinks. This may cause a build-up in sewers which can create blockages. These blockages can result in sewage backing up and coming out of your toilet or waste pipes, into your home.

The good news is that it really isn't a difficult thing to help prevent; simply put all your unflushable items in the bin instead of down the toilet. You can also cool leftover cooking fat, oil and grease and then either scrape it into a container, such as a used yoghurt pot, or pour it into an empty bottle and throw it in the bin.

Southern Water and the Consumer Council for Water, the independent consumer watchdog, have joined forces to fight 'The Unflushables', a new campaign to help customers understand the impact of internal sewage flooding, and easy steps people can take to stop it. These few small steps can make a huge difference to sewer pipes and help prevent the misery of sewer flooding happening to you. For more information, visit: www.southernwater.co.uk/the-unflushables.

If you would like more information about 'The Unflushables' campaign, our Field Customer Engagement Officer, Tim Eaton, will be happy to attend local events or deliver a presentation. Please contact Tim via email: tim.eaton@southernwater.co.uk

Give Your House an M.O.T.

It's Spring, and time to venture outside – to take a really good look at your house. How has it survived the winter? A spokesman for the National Home Improvement Council says: "For most of us, our homes are our biggest single investment. We need to look after them well."

There are a number of things to look for:

Roof space: Venture up into your loft and check for signs of leaks through tiles or roof linings. Check timbers are sound, dry and free from woodworm.

Walls: Are your airbricks clear? Are there any cracks in your brickwork? Check for crumbling bricks, often caused by frost and loose rendering.

Chimneys and flues: If you don't fancy climbing up onto your roof, why not beg or borrow a pair of binoculars off someone and check for broken pots, missing pointing and loose chimney seals. Make sure your flues are clear from debris.

Gutters and pipes: Make sure that all your gutters and pipes are clear of twigs and leaves. You'll be surprised where last year's fallen leaves have ended up! Also, check for leaks in downpipes, as these can cause damp patches.

Floors: Many of us now have timber floors. Check for undue springiness – which can be a sign of rotting or weakened joints. Inspect your skirting boards for rot and woodworm.

Doors and windows: Check for rot or corrosion, missing putty and flaking paint. Make sure they open and close properly and are not warped. Check your locks for wear.

Paths: Finally, wander around the paths outside your house. Check for loose paving or broken slabs – a potential hazard. If you find problems, lay new paving – soon!

Most of these checks are things that you can carry out yourself. But if in doubt about your roof, your heating or your electricity, it is far better to call in an expert.

Our first ever National Park

Seventy years ago, on 17th April 1951, the Peak District National Park was established. It was Britain's first national park, and it was formed partly as a result of a mass trespass on Kinder Scout – the highest point of the park – just under 20 years earlier, which helped gain open access to moorland that had previously been in private hands and closed to walkers.

The precise effect and extent of the trespass, in which Young Communists were prominent, is still widely disputed by rambling associations.

The Peak District is mostly in Derbyshire, but includes parts of Cheshire, Greater Manchester, Staffordshire and Yorkshire. It is usually split into the higher Dark Peak and the gentler White Peak, in the centre and south of the district. Altogether it covers 555 square miles: it is reckoned that 20 million people live within an hour's journey of it.

It contains only one town – Bakewell – but several others, such as Buxton, are on the fringes. It is now the fifth largest of the 13 national parks in England and Wales. The land within it is a mixture of public and private ownership, and there are many planning restrictions imposed by the national park authority to prevent inappropriate development.

Kent Play Clubs is a local charity which sets up after school clubs in primary schools, often in rural locations.

The provision of an after school club, which is OFSTED approved, allows parents access to affordable childcare and it provides the children (aged between 4 and 12) with a safe place to be whilst their parents are at work. This also benefits the wider community by helping rural schools stay open.

Appeal following attempted dog theft in Ashford

An appeal for information has been issued following a report of an attempted robbery in Ashford.

Kent Police was called on the afternoon of Tuesday 9 March 2021 following a report that a male had attempted to take a dog from a teenage girl in Athol Road.

It was reported that, at around 3pm that day, the girl had been approached by a man who attempted to take the lead of a dog she was walking.

The girl kept hold of the lead and the man left the scene. No injuries were reported.

The suspect is described as being around five feet, ten inches tall, of mixed race, slim build and aged between twenty-five and thirty.

He is said to have dark hair, which was short at the sides and longer on the top, and was wearing light blue jeans and a red 'puffer' jacket.

Anyone who witnessed the incident or who has dashcam or CCTV which may assist the investigation is urged to call Kent Police on 01843 222289, quoting reference 46/38561/21.

You can also contact the independent charity Crimestoppers, anonymously, on 0800 555 111 or by using the anonymous online form at crimestoppers-uk.org

Chelsea Flower Show moves to the autumn

The world's greatest flower show will be held for the first time ever in September with the usual cutting-edge garden design, fabulous floral displays and simply the best shopping

For the first time ever in its 108-year history, The Chelsea Flower Show will not be held in the Spring, but in the Autumn.

The 2021 Chelsea Flower Show will now take place from 21st to 26th September. The Royal Horticultural Society, the show organisers, will still hold it at the Royal Hospital in Chelsea.

The hope is that by September, millions more people will be vaccinated, so that mass outdoor events will be able to happen safely. 140,000 people are predicted to attend this year's Chelsea, over the six days.

Sue Biggs, RHS director general, says: "We believe many designers and nurseries will look forward to working with different plants that would not be available or at their best in May. We will do our utmost to deliver a beautiful, uplifting and different RHS Chelsea safely in September 2021."

Mick's Computer Chat

Yet another scam aimed squarely at us small business owners. This came in by email. And it was obvious on inspection that it was a scam. I will take you through the clues. Top left logo missing, If you hovered over the missing logo it gave you the link to the logo, it was not the UK government it was the same link as the self assessment link. The email is shown below with some notations from me.

HMRC Fourth SEISS Tax Refund Notification **SCAM**

↑
bad spelling

The other things to look for are the main link for the self assessment is pointing to a Japanese domain although where it actually is located I do not know. It is likely to be an innocent site that has been hacked and the scam pages are hidden within the site. Other things to note are the bad grammar and spelling mistakes.

This particular scam email is not very good and I have seen some that are much better. The most clever ones point everything at the legitimate site so any links look correct and it is only the important one that goes to their site. So it is always important to check every link you may be tempted to click first. Just hover over the link and read it very carefully. ALL government websites end with GOV.UK nothing else so GOV.UK is not the same as GOV.UK.COM or GOV.UK.absolutely anythingelse the only thing that could legitimately follow the gov.uk is a forward slash / and then a specific address. For example the proper link to HMRC online services is **<https://www.gov.uk/log-in-register-hmrc-online-services>** So GOV.UK then the forward slash then the online address on that website, in this case **log-in-register-hmrc-online-services**.
